

Mini Project 2: AI Learning Portfolio Builder

Explanation

The AI Learning Portfolio Builder is a digital portfolio that showcases learning activities, projects, certifications, skills, and achievements. It helps students present their academic and professional growth effectively.

Features

- Personal profile section
- Skills showcase
- Project portfolio
- Certification management
- Achievement tracking
- Progress dashboard
- Responsive design
- Local storage support

AI Tools Used

- ChatGPT – UI design and code generation
- GitHub Copilot – Coding assistance
- Canva AI – Portfolio design
- Google Gemini – Content suggestions

Workflow

1. User enters profile details.
2. Skills, projects, and certifications are added.
3. Portfolio updates automatically.
4. Progress is tracked and displayed.

Benefits

- Professional portfolio creation
- Placement and internship support
- Organized presentation of achievements
